

# Full Stack Developer for Angular/ ASP.NET CORE

 Istanbul, Turkey  Full-time Employment  IT / Development  Permanent

From day one you will be part of the OCCON family. You will get deeply involved in the development and documentation of our in-house developed web application.

---

## About the job

We are looking for a new colleague in our development team!

### YOUR TASKS

Your tasks will include the planning, development, and documentation of our in-house developed web application, as well as monitoring and maintaining our databases. Also important is the maintenance of the office hardware and network.

At OCCON you are not only a basic developer. You will be part of an agile and open-minded team that shares ideas with each other!

### YOUR QUALIFICATIONS

#### You have...

- a bachelor's degree in applied computer science and gathered some experience as a professional. (OR you are a job starter and you want to apply for a junior position?)
- experience with at least one SPA framework (Angular, React, Vue) and C#.
- experience or you are interested in non-relational databases? e.g. Apache, Cassandra, MongoDB, and Neo4j.
- experience in dealing with web servers? e.g. nginx

#### You are...

- fluent in English (german beneficial)
- willing to learn new things and to share your knowledge
- highly motivated, innovative and creative

### YOUR BENEFITS

- Be part of a stable European company
- Work with customers all over the world
- Be part of a young experienced and open-minded team
- Secure job, permanent contract
- Future perspectives

---

We are looking for intelligent young professionals who want to learn, improve and take over responsibilities. If you have worked for OCCON you can be sure you learned a lot for your future. Be someone in our OCCON family!
